■ **Mosquito spraying**

Will continue weather permitting until the weather gets cold.

■ **Water Main Flushing**

If a flushing crew is on your street, please note that you may have temporary discolored water. In the event you have done laundry while the crew was flushing and your clothes are discolored, do not dry the wet clothes. Run your cold water until the discolored water clears out of your pipes. Washing the clothes again (when the water clears) will normally take care of this issue. If the clothes are still discolored, the Water Department office has, available at no charge, a detergent additive.
